

AF8EVOPRO

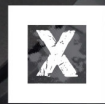

Marine Certified

MADE WITH RADIAL ZIP CONE TECHNOLOGY!

8" COMPONENT COAXIAL SPEAKER SYSTEM

250 WATTS MAX ■ 125 WATTS RMS

- Certified Marine Grade High Output Speaker System designed for marine and powersports enthusiasts
- 3 way Component Speaker with zip cone and bridge mount tweeter
- 1" Titanium alloy dome high output super tweeter
- Radial Zip Cone provides extended off axis high frequency reproduction
- Ultra lightweight, thermal molded, UV treated Kevlar cone
- Waterproof, encased high output, lightweight Neodymium Motor Structure with copper ring for high frequency linearity
- Multiple roll, UV impregnated, waterproof, PC surround
- Integrated sealed crossover network with plated terminals
- Fiber reinforced, UV Stable injection molded composite frame and grill
- Built in RGB LED Cone Lighting offers lighting customization
- 48"(122cm) speaker wire and RFG LED leads included

Developed for
extreme environments

AF8EVOPRO Specifications

1.2" (31mm) voice coil
Peak Power Rating: 250 watts
RMS Power Rating: 125 watts
Frequency Response: 38-20KHz
SPL: 96dB
Impedance: 4 ohms
Depth: 3.03" (77mm)
Cutout: 7.0" (178mm)
Outside Diameter w Grill: 8.5" (216mm)
Outside diameter with RGB light ring installed: 9.125"
